Discussion

- What challenges and/or opportunities you have faced around using student engagement data at your institutions?
- In what ways, if any, have you leveraged this data for improving retention?

Retention

- **First- to second-year retention rate:** 68-72%
- **4-year graduation rate:** 42-47%
- Perform ~20% pts above our campus profile
- **Issues:**
 - Lack of data or understanding of how student engagement contributes to retention
 - No comprehensive student org management system

“Auggie Life”

- Launched “Auggie Life” (Engage platform with Anthology) in fall 2019
- First academic year was aimed at introducing student organizations to the system
 - Registration, event planning, funding requests, etc.
- In fall 2020: COVID-19 shifted strategy to mandate that attendance be tracked at all events

Report Generation

The screenshot displays the Augsburg University Reports interface. At the top, there is a search bar and a navigation menu with options like Summary, Organizations, Events, Users, Elections, Finance, and Configure. The Configure menu is open, showing options such as Forms, Alerts, Reports, Event Pass, Voter Engagement, Imports, Settings, Interests, Campus Links, Site Styles, Site Cover Photos, Data Sharing, Additional Fields, and Privacy Policy. The main content area is titled 'Reports' and includes instructions on how to select a report type. A dropdown menu for 'Choose Report' is set to 'All Events'. Below this, there are criteria selection fields for 'Start Date' (01/01/2024) and 'End Date' (1/31/2024), along with a checkbox for 'Send me a message when this report is ready'. At the bottom of the form are 'Request Report' and 'Cancel' buttons. A sidebar on the left contains navigation icons and user profile information.
